Art Unit: 3711

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-9, 19, and 20, drawn to a kit for play a golf game, classified in class 473, subclass 173.
- II. Claims 10-15, drawn to a method of playing a golf game, classified in class 473, subclass 173.
- III. Claims 16-18, drawn to a method of playing a golf game, classified in class 473, subclass 173.

The inventions are distinct, each from the other because of the following reasons:

Inventions II,III and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus can be used to practice another and materially different process as evidenced by two different methods of play being claimed by applicant.

Because these inventions are distinct for the reasons given above and the search required for Groups II and III is not required for Group I, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
